In happiness and calmness

Mother with one child  
In lap, the other inside  
Heavenly feelings no wild  
Sparkle a marvelous joy in mind  
Down to earth in a soft pink pride  
Precious, expressing most mild.  
When she sincerely takes care  
Of a fragrancng fertile future  
Standing on a prestigious present  
As the moon in full from crescent  
Her smile smells smart and sweet  
In happiness and calmness that wait  
For the baby would be coming  
As a lovely little anthropoid being.

Sima Chakrabarti

Hello friends...  
Here is your CHALLENGE...  
Pen your living thought in this evening..  
Let your thought may be a great refreshment for  
the others... 👍  
So let's start now...  
JOYFUL EVENING to you all...  
hashtags mandatory

हेलो दोस्तों से रही आपकी चनौती

## FROM PRINCIPAL'S DESK

Early morning is  
The time to pray  
To get rid of leisure  
Inviting each sunray  
For energy as light  
As much as may.  
It is a great pleasure  
For anyone to play  
With innocent children  
Like soft clay  
Building up nation  
On the brightest bay  
Of the ocean of knowledge,  
The only way.....  
The young generation  
Can make a beautiful  
Earth to say  
Let's work together,  
Love each other, Hey!  
We have success,  
we have fun, we have gay!

Children are legally defined as adult at the age of eighteen. After completing school education they come to the College and spend a reasonable part of the most energetic and important time in life. An educational institution offers various avenues to choose for making a golden future for them. Our institution is happy to dedicate its infrastructure with full capacity to all the students. The undergraduate study is the foundation of higher academic career. All the teachers are ready to discuss with the students on academic matter in class and after class. The central library and the seminar libraries of each department should be utilized as much as possible. The library office staff are always ready to help the students in every possible way. Other than the text books and reference books related to syllabus, the library has been enriched with books and journals in various areas of Literature, Science, Commercial, Economic and Social applications and technological progress of the world.

A complete human being with social responsibilities is grown up under counselling by the parents, the teachers and books and above all self-study along with nature. Education is the key to employ one in self-study. It is our duty to train the children to look at circumstances rationally, take decisions independently, distinguish between good and bad and have moral support to everything positive for the welfare of the society, the country and the world.

Depending on practical need, with emphasis on economic independence of students after completing academic degrees, we have arranged for a well-equipped computer centre with efficient facilities for various diploma and certificate courses in computer helpful to secure good jobs. We are conducting Basic and Advanced computer courses in collaboration with reputed computer institutes. Another important qualification for securing job is the capability to verbal communication in English. For this we are conducting Communicative English classes by reputed teachers from British Institute. As another avenue for job prospects, we are running certificate course on "Pre Primary Teachers Training" for both boys and girls both. It is high time to become conscious about the starting of education in nursery level. Keeping in mind the college is playing its part as a study centre for this course.

In the sea of solitude,

*In the sea of waves in solitude*

*She locates the distant space*

*Searching infinity with its vastness*

*Tripped in depth of a grave silence*

*Spreading peace nothing to aggress.*

*She feels they're similar in attitude*

*That will go with her upcoming future*

*In a world of no reproductive creature*

*But only souls roaming for adventure*

*In no love n hatred no stress n torture*

*Far far away from her present latitude.*

*- Sima Chakrabarti*

Loving you taught me

*Loving you taught me  
To be happy, no gloomy,  
Through a true sharing  
Rather sacrificing  
Everything I love  
To feel like a dove  
Enjoying a free fly  
In the beautiful sky  
Whether I sit or lie  
To Sorrows say goodbye.*
