Programme Notice:

Attendance Sheet:

“Mrs Chatterjee Vs Norway”- An Educational Experience with Semester VI students.

The Education Department of Maharani Kasiswari college along with the Semester VI Honours students went together to watch “ Mrs Chatterjee Vs Norway”, a movie that is based on the real life experience of a young lady with the social services of Norway who take away her children from her in the pretext of her being an unfit mother and put her children up for foster care. As part of a holistic educational experience, this movie was chosen as it dealt with curricular topics like domestic violence and would act as an example to show students that “Where there is a will, there is always a way”. Based on the real experience of Sagarika Chakravorty and starring Rani Mukherjee in the lead role, it dealt with the determination of a young mother to take on the government of a foreign country to rescue her children who had been forcibly taken away from her.

The students had themselves had taken the initiative, made the arrangements and bought tickets to the movie at Diamond Plaza for the afternoon show on 12.04.23 (Wednesday). After classes were over at college, the faculty members arranged for the students to meet them in front of the hall prior to the start of the movie. 5 faculty members along with 14 students watched the movie together. It was a thoroughly moving and enjoyable experience for all those present. It was an example of how resilience and perseverance can successfully move the wheels of justice in favour of those who fight for what is right.
