OBJECTIVE: To give a brief knowledge about coastal ecosystems present in the transition area between land and sea. Also to bring awareness about human interventions in the coastal seas disrupting equilibrium and to remind ourselves about our responsibilities.

SUMMARY: The session began with inaugural speech by our respected Principal madam, Dr. Sima Chakrabarti, who gave valuable insights into the importance of coastal seas. It was followed by speech delivered by our HOD sir, Dr. Uttam Kumar Sardar who also discussed briefly how different organisms living in shallow waters are interdependent. The show began afterwards and it ran for 50 minutes. In the end, teachers and students expressed their views about the show.

OUTCOME: The entire session was very informative and enlightening, especially for 3rd semester students as their Skill Enhancement Course (SEC) paper is about Coastal Management. Students were able to understand the intricate relationship between coastal environment and organisms dwelling in it, how this relationship is endangered due to human interference and how to preserve them using sustainable ways. All present in the show enjoyed the audio-visual approach of learning process.
