Waste Management Policy

MAHARANI KASISWARI COLLEGE

20, Ramkanta Bose Street, Kolkata- 700003

Introduction

The origin of Maharani Kasiswari College may be linked to the great love for Education and Learning of the Cossimbazar Royal Family of Murshidabad. Starting from Krishna Kanta Nandy, great –grandson of Kalinath Nandy (founder of Cossimbazar Estate) to Raja Harinath (grandson of 'Kanta Babu'), Raja Krishnath (son of Harinath), Maharani Swarnamoyee (wife of Raja Krishnath), Maharaja Manindra Chandra Nandy (nephew of Maharani Swarnamoyee), Maharaja Sris Chandra Nandy (son of Manindra Chandra Nandy) – all spent majority of their wealth towards the cause of Education throughout Bengal. Establishment of Hindu College, Krishnath College of Berhampore, Lady Duffrin Medical Hostel of Kolkata andseveral other schools and colleges are few examples of their immense patronagefor promotion of education in Bengal.

The Policy Statement

The College has adopted principles of the 'best practicable environmental option' in the delivery of its waste management services. The approach is a 'waste hierarchical approach', to reduce, reuse, recycle and recover waste products in preference to the disposal of waste. The college recognizes the importance of meeting these requirements and to manage its waste responsibly, reduce the volume of waste sent to landfill and maximize reuse and recycling where possible.

The College requires all the stakeholders of the premises to comply with this Policy and to be associated with *"Green IEW Campus"* to ensure compliance with all waste legislations.

Any solid waste generated in the campus shall be managed and handled in accordance with

thecompliancecriteriaandtheprocedurelaiddowninMunicipalSolidWastes(Manag ementandHandling)Rules,1999,publishedunderthenotificationoftheGovernment of India in the Ministry of Environment and Forests number S.O. 783(E), dated,the 27thSeptember, 1999 intheGazetteofIndia,Part-II,Section 3,Subsection(ii).

IEW is keen to ensure the safety during each and every step of the waste managementpractices, which is being implemented with the help and active participation of nearestMunicipalCorporation.

PolicyObjectives

Theobjectivesofthispolicyare:

- Toensurethatwastemanagementisperformedinaccordancewithalllegalrequirements, a ndto planforfuturelegislativechanges andtomitigatetheireffects.
- Tominimizewastegenerationatsourceandfacilitaterepair, reuse and recycling thedisposalofwastesinacosteffectivemanner.
- Toprovideclearlydefinedrolesandresponsibilitiestoidentifyandcoordinateeachactivityofthewastemanagement.
- Topromoteenvironmentalawarenessinordertoincreaseandencouragewasteminimizat ion,reuseandrecycling.
- To expand the recycling opportunities in the college campus and ensure the waste towealthmission.
- > Toensurethesafehandlingandstorageofwastesinthecollegecampus.
- Toprovideappropriatetrainingforteachers, residents, staff, students and other stakeholdersonwastemanagementissues.
- > Topromote holisticapproachofwastemanagementinthecampus.

OrganizationandManagement

The responsibilities and organizational arrangements have been executed

 $for this {\tt WasteManagementPolicy} with a variety of personnel within the college.$

AdvisoryBoard

Principal

President-GoverningBody Coordinator-IQAC Convener-Greencampussubcommittee Faculties-Associated departmental

FunctionofAdvisoryBoard

i) Coordinating the provision for these rvice providers of the waste management.

ii) Ensuring that all the internal management options are maintained in a

continuous functional mode and comply with the IEW's Waste Management Policy.

WastePolicyandOperation

TheCollegewill:

- Meetorexceedallwasterelatedlegislationandrequirements;
- Implementwastestrategiesbasedonthe wastehierarchy
 - **Reduce** waste production Before you buy, consider whether the item isbeing offered for reuse by another. If not, then make sure thatwaste from theitempurchasedcanbeeffectivelyreusedorrecycled. Where possible make attempts to repair items beforegoing on to purchase new. Get suppliers to take back unwantedpackagingwhendeliveryismadeaspartoforderformbypr ocurement;
 - Reuse items Explore opportunities to reuse items before disposing aswaste.Examples arefurniture,booksandlTequipment;
 - Recycleasmuchaspossible–Mostmaterialscannowberecycled.Purchase products that can be recycled and where possible aremadefromrecycledmaterials.
 - Recover useful materials from waste, Energy from Waste for examplemetalcanbeseparatedandtakentoscrapyardsandfoodwa ste canbecollectedandturnedintocompost;

Disposal–Disposal in landfillisthelastresortforitemsthatcannotbe

dealtwithbyanyoftheaboveoptions;

that all staff Ensure as producers ofwastebecomeresponsible formanaging theirown domestic waste stream, sorting out their recyclingandreducing wastetolandfill;

Responsibilities

Responsibility for waste production and consequently waste management has to beshared by every member of IEW staff, students and partners. Below is a list of keystakeholdersandtheirroleinwastemanagement:

AllStaff

All staffsarerequiredtosupporttheSchool'swastepolicies by minimizingwasteproduction, reusing items and recycling as much waste as possible. Table 1 outlines abreakdownoftheInstitute'swastestreams.

AllStudents

IEWstudentsarerequiredtosupportandabidebythecollege'swastepolicies-reducingwaste, reusing andrecyclingasmuchaspossible.Studentsarealsoexpectedtobetidyandconsiderate whenonIEWproperty.

CleaningStaff

Cleaningstaff are responsible for emptyingthedesignated waste receptacles and fortheappropriatestorageofthedifferentwastestreamspriortocollectionbytheappropriate waste contractor. Also, they are required to assist with improvements towastemanagement operations andwasteaudit exercises.

WasteContractors

The waste services contractor will assist in the continual improvement to the College'swaste management operations and performance as much as possible and fulfill theperformancerelated aspects of their contract.

Communicationandoutreachcampaigns

Effective communication and outreach campaigns will greatly contribute to theimprovement of the waste management system and provide a platform for promoting other objectives within the environmental policy. *Table1* provides a breakdown of promotional/communication avenues for the different stakeholder groups within the college.

AuditingandContinuousImprovements

Spot check audits will be conducted twice a year across the College's estate to identifyrecycling hotspots with a view to introduce targeted interventions. In addition, areas of improvements and non-conformities can be identified during the Sustainability ManagementSystem(SMS)auditingprocess.

Glossary

*Hazardous Wast*e - Waste that causes substantial or potential threats to public health orthe environment e.g. Acids, Pesticides, Fluorescent Tubes, Alkaline Solutions, PhotographicChemicals, BatteriesWasteOilsPaint, Solvents, Computer Monitors, radioactivesu bstances.

Recycling - The diversion of waste away from landfill or incineration and the reprocessingofthosewastes either into the same product or a different one. This mainly includes non-hazardous wastes such as organic waste, wood, paper, glass, cardboard, plastic and scrapmetal.

Waste- According to United Nations Statistics Division (UNSD), waste are "materials thatarenotprimeproducts(that is

productproducedforthemarket)forwhichthegeneratorhasnofurtheruseintermsofhis/hero wnpurposesofproduction,transformation or consumption, and of which he/she wants to dispose. Wastes may begenerated during the extraction of raw materials, the processing of raw materials intointermediate and final products, the consumption of final products, and

humanactivities. Residuals recycled or reused at the place of generation are excluded."

Segregation - An activity where waste or materials are separated or are kept separateaccording to radiological, chemical and/or physical properties to facilitate waste handlingand/orprocessing.

Cytotoxicwaste-maybecontaminated with a cytotoxic, pharmaceuticals, laboratory chemicals used in preparation, transportation and administration.

Chemicalwaste-generatedfromtheuseofchemicalsinlaboratoriesforteachingandresearch *Radioactivewaste*-iscontaminatedwith

radioactive substances which arises from medical or research uses.

Generalwaste-includespaper, plastics glass, liquids and organics.

Hazardous Waste –generatedbytheindustries,cancause environmental pollutionandadversehealtheffectsifnothandledandmanagedproperly.Itseffectivemanage ment, with emphasis on minimization of generation and recycling/ reuse, takingintoaccounteconomicaspects, is thereforessential.
